Information about payment methods

You can pay for cryptmix.org services online with bank cards.

Payment by VISA bank cards

Payment by VISA bank cards

All types of VISA payment cards are accepted for payment, except for Visa Electron. In most cases, the Visa Electron card is not applicable for online payment, except for cards issued by individual banks. You need to find out the information concerning the possibility of paying with Visa Electron from the issuing bank of your card.
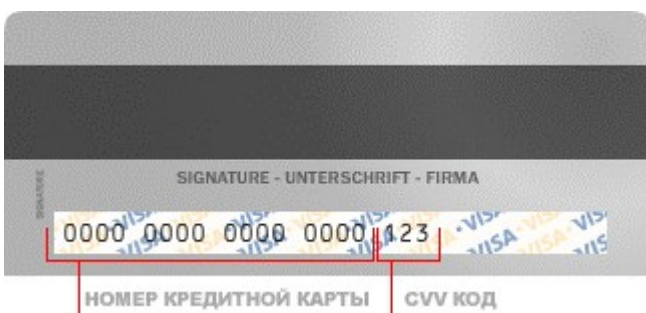

Payment by credit cards MasterCard

All MasterCard types are accepted for payment.

What you need to know:

 1. Your credit card number;

 2. The expiry date of your credit card, month / year;

 3. CVV code for Visa / CVC code for Master Card: 3 last digits on the band for signing on the back of the card.

If there is no CVC / CVV code on your card, it is possible that the card is not suitable for CNP transactions (ie, transactions where the card itself is not present and its details are used), and you should contact the bank for detailed information. information.

Payment is made through the PJSC CB "Ural Bank for Reconstruction and Development" using Bank Cards
